## COMPREHENSION

### Directions :

In this section you have few short passages. After each passage, you will find some items based on the passage. First, read a passage and answer the items based on it. You are required to select your answers based on the contents of the passage and opinion of the author only.

### Passage

For many years, ship captains navigating the waters of Antarctica have been intrigued by sightings of emerald icebergs. Scientists have now explained their mystery. These icebergs are turned upside down. Icebergs are blocks of ice that have broken off huge slabs of frozen snow called ice shelves. Their green appearance results from sea water that has frozen at the bottom over hundreds of years. The frozen sea water has dissolved organic matter which gives it a yellow tone and the fresh water 'ice shelf' above has a blue tinge. When the iceberg turns upside down, it appears green through the visual mix of yellow with the blue from below.

51. What is the meaning of 'intrigued' ?

- (a) Surprised
- (b) Fascinated
- (c) Muffled
- (d) Repulsed

52. What are ice shelves ?

- (a) They are huge pieces of chunks of ice
- (b) They are frozen sea water
- (c) They are pieces of ice which look like shelves
- (d) They are huge pieces of ice which are very old

53. What are icebergs ?

- (a) Huge chunks of ice floating on water
- (b) Frozen sea water
- (c) Green ice
- (d) Green yellow water below and blue above

54. When the iceberg turns upside down, it appears

- (a) green
- (b) yellow
- (c) blue
- (d) white

### Passage

In its simple form, science has helped man to protect himself from Nature and to overcome natural obstacles to movement. But with the advance of science, a situation has arisen in which Nature need to be protected from man. He has used Nature's own gifts, not only of metal but even the human brain, to attack Nature. Forests are being destroyed not only to satisfy need but to provide luxuries. The evil effects of deforestation are already making themselves clearly felt in climatic changes and soil erosion. Man has at last begun to learn that he has to protect if he wants Nature to protect him.

55. The use of science in its simple form has helped man to

(a) do such things as building shelter and make carts, boats, etc.

(b) make bombs and missiles

(c) build factories using machinery

(d) make planes

56. Nature now needs to be protected from man because

(a) nature has become weak

(b) man is rapidly destroying Nature

(c) man is cruel to animals

(d) man has become irrational

57. Forests are being destroyed in order to

(a) provide land for agriculture

(b) provide wood for fuel

(c) kill dangerous animals

(d) provide necessities as well as need-less comforts and pleasures

58. The evil effect of destroying Nature instead of using it is seen in

(a) the fall in production of our factories

(b) the fall in our standard of living

(c) the unfavourable changes in climate

(d) frequent occurrence of epidemics

59. Climatic changes and soil erosion are results of

(a) scientific developments

(b) nuclear explosion

(c) natural calamity

(d) deforestation

## Passage

According to the civil laws of most countries obedience is no longer the duty of a wife; every woman has the political right to vote; but these liberties remain theoretical as long as she does not have economic freedom. A woman supported by a man is not liberated from the male. It is through gainful employment that woman has travelled most of the distance that separated her from the male; and nothing else can guarantee her liberty in practice.

I once heard a maidservant declare, while cleaning the stone floor of a hotel lobby, "I never asked anybody for anything; I succeeded all by myself." She was as proud of her self-sufficiency as a Rockefeller, Ford or Birla.

However, the mere combination of the right to vote and a job does not mean complete liberation: working, today, is not a liberty.

A recent study of women workers in a car factory shows that they would prefer to stay in the home rather than work in the factory. The majority of women do not escape from the traditional feminine world. Their jobs at the factory do not relieve them of housekeeping burdens; they get from neither society nor their husbands, the assistance they need to become in concrete fact the equals of men.

60. Which of the following helps women most to achieve equality with men ?
- (a) The right to vote
  - (b) Civil liberties
  - (c) A job
  - (d) Wealthy husbands
61. Why does the writer talk about the maidservant in the hotel lobby ?
- (a) The servants of today will one day be freed from their rich masters
  - (b) A servant can become as rich as Rockefeller or Birla
  - (c) Even with a low paid job women can achieve equality
  - (d) Economic independence is necessary for women's liberation
62. In which paragraph does the writer say that it is revealed that some women would not like to work in the factory ?
- (a) In paragraph four
  - (b) In paragraph three
  - (c) In paragraph two
  - (d) In paragraph one
63. "These liberties" in the first paragraph refer to
- (a) The right to vote, not to obey and right to a job
  - (b) The right to vote and not to obey
  - (c) The rights of servants to disobey their master and the right of the master to punish them
  - (d) Women's right to vote and earn money

### Passage

During the past three generations the diseases affecting western societies have undergone dramatic changes. Polio, diphtheria, tuberculosis, commonly known as TB, are vanishing; one injection of an antibiotic often cures deadly diseases such as pneumonia or syphilis; and so many mass killers have come under control that two-thirds of all death are now associated with the diseases of old age. Those who die young are more often than not victims of accidents, violence, or suicide.

These changes in health status are generally equated with the decrease in suffering and attributed to more or better medical care. Almost everyone believes that at least one of his friends would not be alive and well except for the skill of a doctor. But there is in fact no evidence of any direct relationship between this change in the pattern or nature of sicknesses on the one hand and the so-called progress of medicine on the other hand. These changes are the results of political technological changes. They are not related to the activities that require the preparation and status of doctors or the costly equipment in which doctors take pride. In addition, an increase in the number of new diseases in the last fifteen years are themselves the result for medical intervention. They are doctor-made or iatrogenic.

64. In the western societies, the occurrence of polio, diphtheria and tuberculosis has
- (a) increased
  - (b) completely stopped
  - (c) decreased
  - (d) continued without changes
65. More death are now associated with old age than in the past because
- (a) iatrogenic diseases are spreading faster now
  - (b) deadly diseases affecting the young have been well controlled
  - (c) accidents, violence and suicide that killed many youths in the past are now under control
  - (d) political and technological changes now take better care of the young than the old
66. The writer probably is arguing for
- (a) stopping the practice of western medicines completely
  - (b) stopping the use of costly equipment and medicines
  - (c) rethinking about the successes and failures of the western medicines
  - (d) giving greater attention to new, iatrogenic diseases than to the old diseases such as polio, diphtheria and pneumonia

### Passage

Poverty is a complex problem. It is far more than an economical condition. We measure it usually in terms of income but forget that poverty embraces a whole range of circumstances, including lack of access to information and to basic services like nutritional diet, health care and education. It results into a loss of cultural identity and destroys traditional knowledge. Poor people become marginalised and suffer from exploitation and loss of human dignity.

67. Which of the following sentences comes close to the meaning of the sentence, "Poverty embraces a whole range of circumstances."

  - (b) They didn't get newspapers to read at all
  - (c) They can't go to school and read books
  - (d) They don't get information about schemes of getting rich
69. Why do you think 'cultural identity' is important ?
- (a) A sense of cultural identity gives people self-respect and confidence
  - (b) Cultural identity defines the character of poor people
  - (c) It is important to have cultural identity to get jobs
  - (d) It is useful to have cultural identity because it brings your success
70. Which of the following sentences comes closest to the sentence 'Poor people become marginalised' ?
- (a) They are not given any benefit of any government schemes
  - (b) They are ignored by the rich people
  - (c) They are the most ignored elements of the society
  - (d) They are the most disposed elements of the society
71. What do you think is the tone of the passage ?
- (a) Objective but querulous
  - (b) Descriptive and impassioned
  - (c) Argumentative and critical
  - (d) Objective and critical
